Professional Summary

Highly skilled **MERN** Stack Developer with 1+ years of experience in developing dynamic, user-interface websites and applications. Proficient in **MongoDB**, **Express.js**, **React.js**, and **Node.js**, with a strong emphasis on front-end design and user experience. Adept at collaborating with cross-functional teams to deliver robust web solutions.

Technical Skills

- **Front-End:** HTML, CSS, JavaScript, React.js, Bootstrap, SASS, Responsive Design.

- **Back-End:** Node.js, Express.js, Dotnet(C#), RESTful APIs.
- **Database:** MongoDB, Mongoose, MySQL.
- **Design Tools:** Adobe Photoshop, Figma, canvas, wix studio.
- **Version Control:** Git, GitHub.
- **Deployment:** AWS, Netlify, Docker.

Professional Experience

1. Junior Executive (APR) – Lumina Datamatics (Mar'10- Apr '23)
- The digital publication of E-books and the development of digital libraries and catalogs.
- Provides professional services such as editing with **XML,** proofreading, and designing.
- Achieving 15,000 pages are converted and exported on the web with team members within one month.

2. Internship – Kosoft (Jun'22- Dec'20)

- I created the user login form, once a User Logged into the Login form, then the welcome page was shown.
- I achieved this by the **React js** along with **Ant-design** and it was responsive for a mobile view and also user-friendly interface.
- After that, I stored the data of the page in the **MySQL** database.
- I retrieve the data from the database by using the **dotnet(c#)** and perform the get, post, and delete (crud) operations.
- I check the performance of the crud operation by using the **postman**.
